♦ PROFILE ♦

Computer Science student at Mahindra University (India), studying abroad at Centrale Méditerranée in Nice on the CentraleDigitalLab programme. Hands-on experience in machine learning, NLP, RAG systems and full-stack development. Seeking a 5-month internship (stage) from April 2027 in AI/ML, NLP or software engineering, and open to product and data roles. French student visa holder; convention de stage provided by Centrale Méditerranée.

♦ EDUCATION ♦

Sep 2026 – Aug 2027 — **CentraleDigitalLab Program** • *Centrale Méditerranée, Nice, France*

Aug 2023 – Aug 2027 — **B.Tech. Computer Science and Engineering** • *Mahindra University, Hyderabad, India*

CGPA 9.29/10 (until 3rd year) • 2x Academic Scholarship

Relevant coursework: GenAI and LLMs, Deep Neural Networks, Machine Learning, Artificial Intelligence, Software Engineering, Data Structures and Algorithms, Operating Systems, DBMS

Apr 2019 – Mar 2023 — **AS and A Levels, IGCSE** • *Reqelford International School, Hyderabad, India*

A Levels 87.25%, AS 80%, IGCSE 93.14%

♦ PROJECTS ♦

Oct 2026 – Present — **Space-Mission Knowledge Search Assistant**

Industry project with LAM (Laboratoire d'Astrophysique de Marseille) • Python, NLP, RAG, Qdrant

Building a RAG assistant over LAM's mission documents (Qdrant vector search) with cited answers and abstention; benchmarking hybrid BM25 + embedding retrieval against a keyword baseline.

Apr 2026 – May 2026 — **Can Fine-Tuning on Bias Introduce Bias?**

Group research project • PyTorch, Hugging Face, NLP, LoRA, Sentence-Transformers, LLM APIs

Studied whether fine-tuning a transformer (MiniLM) with LoRA on StereoSet shifts its own bias; measured stereotype score and sentiment accuracy on CrowS-Pairs and SST-2.

Apr 2026 – May 2026 — **Logistics Delivery Service**

MongoDB, Express.js, React, Node.js • use-case testing

Developed a full-stack MERN platform for parcel booking and live shipment tracking, with driver sign-up and management.

Jan 2026 – May 2026 — **Peer-to-Peer Tutoring Platform**

React.js, Node.js, Express.js, MongoDB, FastAPI, Scikit-learn, PyTorch • Agile/Scrum

Tutoring platform with session scheduling, live group mentoring and real-time doubt clarification; built the React/Node/Express layers and an ML learning-pathway recommender; use-case tested.

♦ SKILLS ♦

Technical Skills

Programming	Python, Java, C
AI / ML	PyTorch, Scikit-learn, Hugging Face, NLP, RAG, LLM APIs, Time-series forecasting
Web	React, Node.js, Express.js, FastAPI, HTML/CSS, JavaScript
Databases	MySQL, MongoDB, Supabase (PostgreSQL)
Tools	Git/GitHub, JIRA, Agile/Scrum, Notion, VS Code, Gephi, Adobe Illustrator

Soft Skills

Teamwork, problem-solving, analytical thinking, written communication, stakeholder collaboration

♦ LEADERSHIP & INITIATIVE ♦

Jul 2025 – Dec 2025 — **Programming Head, ROOTS Fest** • funded by Mahindra and Mahindra • *Mahindra University*

Mar 2025 – May 2025 — **Logistics Head, Étincelle** • led volunteer team for La Fête de la Francophonie • *Mahindra University*

Sep 2024 – May 2025 — **Vice-Marketing Head, Hult Prize MU** • selected teams for Hult Prize Global • *Mahindra University*

Jan 2024 – Apr 2024 — **Founder, AURA Handicrafts** • grew INR 5,000 to INR 25,000 in sales • *Mahindra University*

♦ LANGUAGES & INTERESTS ♦

Languages — English (C1–C2), Hindi (C1), Tamil and Telugu (fluent, spoken), French (A2/B1, developing proficiency)

Interests — Reading • Crochet • Singing • Travel
